

WIM LAB EXP - 4

Name : Aditi Chhajer

Reg.No : 221081009

Branch : IT

Course Instructor : Prof. Nikhil Handa

AIM :

To enhance functionality of previously created website by integrating additional features, thereby increasing their usability and effectiveness and hosting it on a web server.

LINKs :

wim lab 4.zip

IMPLEMENTATION:

1. Tell Us About Yourself Page:

- *Designed a form to find out about the basic information about our consumer.*
- *Linked the Submit button to find out more about their eating habits for research purposes.*
- *We have also made each category of food a hyperlink to it's wikipedia page to make the customer more holistically sound while picking their foods.*

2. Tell Us About The food that you like:

- *This will further help in the R&D for the Café Sales.*
- *It has questions like spicy food preferences, cuisines, best meal of the day, etc.*

3. Testing and Deployment:

- *Confirmed all links on the Categories page lead to the correct food items.*
- *Ensured each page is accurate and visually consistent across devices.*

"[Pizzaiolo](#)" redirects here. For the restaurant chain, see [Pizzaiolo \(restaurant chain\)](#).

Pizza^[n] is an Italian dish typically consisting of a flat base of leavened wheat-based dough topped with tomato, cheese, and other ingredients, baked at a high temperature, traditionally in a wood-fired oven.^[2]

The term *pizza* was first recorded in the year 997 AD, in a Latin manuscript from the southern Italian town of Gaeta, in Lazio, on the border with Campania.^[3] Raffaele Esposito is often credited for creating modern pizza in Naples.^{[4][5][6][7]} In 2009, Neapolitan pizza^[8] was registered with the European Union as a traditional speciality guaranteed (TSG) dish. In 2017, the art of making Neapolitan pizza was added to UNESCO's list of intangible cultural heritage.^[9]

Pizza and its variants are among the most popular foods in the world. Pizza is sold at a variety of restaurants, including pizzerias (pizza specialty restaurants), Mediterranean restaurants, via delivery, and as street food.^[10] In Italy, pizza served in a restaurant is presented unsliced, and is eaten with the use of a knife and fork.^{[11][12]} In casual settings, however, it is typically cut into slices to be eaten while held in the hand. Pizza is also sold in grocery stores in a variety of forms, including frozen or as kits for self-assembly. They are then cooked using a home oven.

In 2017, the world pizza market was US\$128 billion, and in the U.S. it was \$44 billion to spread over 76,000 pizzerias.^[13] Overall, 13% of the U.S. population aged two years and over consumed pizza on any given day.^[14]
